

Grand operation against a criminal network in Dera Ismail Khan.

Cyber Crime Circle DI Khan has unearthed an underground criminal network involved in producing and supplying Forged Silicon Thumbs.

During the operation more than 3000 forged fingerprints, printing devices, laptops, mobile phones and other digital devices with incriminating material were recovered. Silicon thumbs were used for illegal activities such as illegal activation of SIMs for fake mobile Wallet accounts to defraud innocent citizens.

Further investigation is underway.
